The filigree and comfortable armchair impresses with its flowing transitions of the seat shell and foot stand and fascinates by its organic, subtle design. The excellent seating comfort quickly makes the armchair a favourite for the dining area. All materials are suitable for continuous outdoor use. The proven sling is durable and absolutely weatherproof. Thoroughly processed, high-quality stainless steel is used to create the robust table frames. Therefore, they are extremely rugged, weather resistant and easy to clean. Tables with matching square table legs complete the **Modena** Collection. In addition to our functional folding bistro tables in various sizes, we offer extension tables with front slide system - all made of best stainless steel. Here, the proportions are also perfect in the extended state. The new, exceptionally smooth-running pull-out technique based on a specially designed aluminium profile makes the extension table extremely easy to use. With this mechanism the tables are smooth to pull out at the front side.
