01	A New Sling for Breezy/Light Outdoor Furniture
02	The mission statement of Fischer Möbel is the continuing
03	development of new models for the outdoor area, through
04	design orientation and material mix. The furniture should be
05	distinctive, individual and always eye-catching. Only the
06	best materials are used to achieve this high standard. Qual-
07	ity starts with design. We invited the acclaimed designer
08	Wolfgang C.R. Mezger into our development team. The
09	result is a chair combining clear. Contours and engaging
10	minimalism, with outstanding comfort to the highest level.
11	Nothing is left to chance in achieving this elegance. New
12	ground was broken in close collaboration with leading
13	manufacturers. For HELIX a new sling material developed
14	specifically for outdoor use is being introduced. A major
15	characteristic of the new Batyline Canatex sling is the use
16	of natural hemp, resulting in less impact on the environ-
17	ment. This gives a natural feel to the surface which main-
18	tains a freshness, even on the hottest of days.
