01	<p>Table surfaces inspired by nature – precious table tops for elegance and solidity.</p> <p>With individual table tops made of 12 mm thick fm-ceramtop, you can design your outdoor area individually through the different formats, colors and surfaces. The selection offers many design options for different Styles from modern to traditional. The design also plays an important role, such as the beautifully designed oval table tops, which make your table an exclusive and representative furnishing element. The material is unique thanks to the technical features such as absolute lightfastness and weather resistance and does not require any special care.</p>
