Collection Kyoto

Assembly Instruction round Kyoto Tables - Item No 1815 and 1832

Congratulations! You have made the right decision in selecting a piece of furniture from our Collection Kyoto. By purchasing this fine piece of furniture you have acquired a high quality product.

For packing reasons and to ensure a safe and faultless delivery this product is only partially assembled.

We have illustrated the assembly procedure clearly and in detail. It only takes <u>a few simple</u> <u>steps</u> to assemble the table. No special skills are required. Just follow our easy to understand instructions below.

For assembly, place the parts of the table on a soft pad (i.e. the delivery carton) to avoid any damage. It is advisable to lay the frame (A) headlong on the soft pad assemble with two persons.

Drawings indicated on page 2.

Cor		
(1)	Hexagon socket, counter sunk screw M6x35	12x
(2)	Nut M6	8x
(1)	Allen Key SW4	1x
(A)	Frame round	1x
(B)	Leg, single	2x
(C)	Leg, twice	1x
(D)	Mounting Plate	1x

Cor			
(3)	0	Rubber Pad self-adhesive	8x
(E)		Table Top	1x

Caution:

Please note, that in the beginning all screws have to be softly fixed and afterwards tightened.

Step 1 – Table Frame:

At a time insert a screw M6 (1) from beneath through the outer drilling hole of legs (B+C) and connect them to the table frame (A).

Step 2 – Table Frame:

At a time insert now two screws M6 (1) from beneath through the inner drilling holes of legs (B+C) and througt the mounting plate (D). Then secure them from top with nut M6 (2).

Step 3 – Table Frame:

Tighten all screws by using the Allen key (I).

Step 4 – Table Top:

According to drawing, glue the rubber pads (3) to the designated positions at the table frame (A).

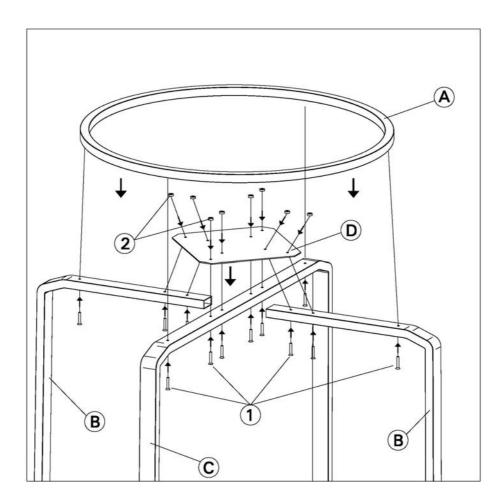

Step 5 - Table Top:

Adjust the top (E) to the centre and place it carefully on the rubber pads (3). Lift the top a bit in order to relocate.

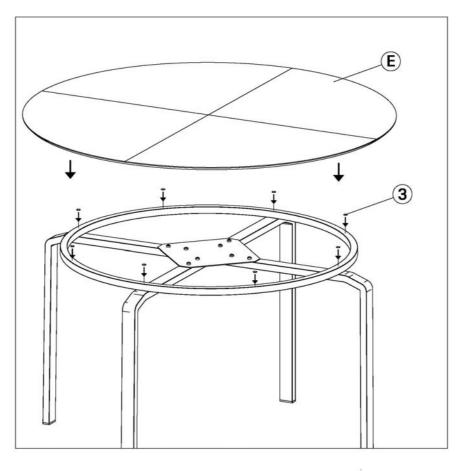

Check and tighten screws if necessary from time to time.
