

## Product information - Front extension tables

The frame can be easily pulled out on one front side. The inner insert plate can be removed there and put on for extension. The sophisticated technology makes our pull-out system very easy to handle. The following photos illustrate the pull-out process. Pull-out tables are available in the Swing, Modena and Rio collections. The sizes are 95 x 150/210, 95 x 200/260 or 95 x 200/260/320. The extension leaves can be conveniently stored in the table frame. For teak tables in the 320 cm version, the second insert leaf must be stored separately for space reasons.

Pull the table apart at the bottom of the frame

Remove the plate from the storage compartment in the frame

Place the plate on the extended rack shelf.
